This report presents the current approved TPS individuals and the number of those individuals that have a current Employment Authorization Document (EAD) as of July 16, 2018 by state and country of citizenship. Approximately 14% of TPS individuals in this report are legal permanent residents, thus not requiring an employment authorization to work. Valid EADs in this report represent those that have an expiration date of 7/16/2018 or later. However, TPS individuals without a valid EAD may still be authorized to work. As determined by the Federal Register notice, an EAD may be automatically extended for 180 days past the expiration.

This is an update to report tracker #2623 which reported 436,866 TPS individuals as of 10/1/2017. The current TPS total is 417,806. This decrease of 4.4% is due to the withdrawal of TPS status for those individuals that have obtained their U.S. Citizenship.
