Please note:

1. The report reflects the most up-to-date data available at the time the system was queried.
2. Nationality is based on the applicant's Country of Citizenship (COC). When the COC is either "Blank", "Unknown" or "US", the Country of Birth (COB) information is used for nationality.
3. When the applicant's COC and COB were absent or listed as "unknown" on the application, the nationality is shown as "UNKNOWN" on the report.
4. Report is grouped by Fiscal Year in which the application was received by USCIS, and Nationality of the applicant. Approval, denials or Administrative Closures may have taken place in a different fiscal year. Pending status is as of March 4, 2019.
5. Please note, victims of domestic violence, victims of trafficking, and victims of crimes who have filed a VAWA self-petition, T visa application, or U visa petition can be put at risk, as can their family members, if their information is provided to someone who is not authorized under 8 USC 1367 to receive that information. As an exception to this prohibition on disclosure, 8 USC 1367(b)(1) allows for the release of tabulations and other statistical material as long as it protects the identity of an individual who has filed a VAWA self-petition, T visa application, or U visa petition, as well as their protected family members. USCIS is therefore unable to release data regarding filed, pending, or adjudicated applications or petitions for these benefit types if the sample size is fewer than 10 as this level of specificity may reveal the identity of victims protected under this provision.
